Re: Report about terrorist activity in Australia

Dear Sir

I have been a witness for indirectly instructing terrorists (which is a kind of terrorist activity and a serious offence according Anti Terrorism Law) in Australia and I have sent you a report about it (my letter dated 27/07/2007 which was sent to you by express post platinum and the record of post office shows that has been delivered and signed by Butler at 06.29 AM 30/07/2007), but still I am not sure you have read that report or not because still I haven't heard from you. Any terrorist activity is taken very serious by Australian government and I didn't receive a quick response from you that's why I am in doubt whether you have received my letter or not.

If you have received my report I would like to know what you have done about that terrorist activity and at the moment in what stage of investigation it is. I appreciate if you also answer my questions in that letter.

Yours faithfully

Sheikh Haron
