

26 September 2007

**Att: Opposition Leader, Mr. Kevin Rudd**

**Fax to: 02 62778495**

**Terrorism issue**

Dear Sir,

I have sent an urgent fax to you on 21 September 2007 regarding an evidence which proves the government of Mr. John Howard has been reckless about terrorism in Australia. As you are aware any subject regarding terrorism is in priority in Australia for the security of the nation, therefore any report regarding being reckless about terrorism has priority and should be taken seriously, that's why after I sent my fax to your office and after calling Mrs. Trudy Jackson to make sure that my fax has been received, I was expecting you to immediately contact me to discuss about this important issue but unfortunately I have not received any reply yet. So I decided to send you the evidence by mail, it is attached to my letter of 25 September 2007 which was sent to you by express post platinum and the record of the post office shows that it has been delivered and signed today, so I hope you have got it by now.

I thought you were different with Mr. John Howard, and still I think you are.

I expect you not to be reckless about terrorism like the government of Mr. John Howard.

The evidence that has been sent to you proves that the current government is not able to handle terrorism and to response to terrorist acts reports on time, so I respectfully expect you to warn the Australian authorities and try to correct them otherwise there will be a danger for the national security. I understand that you are very busy in these days because of electoral campaign but as you are aware terrorism issue is more important than other issues. I also like to know how many hours after I sent my fax on 21 September , that urgent fax has been given to you, when have you received it? I appreciate if you could reply as soon as possible.

Kind regards

**Sheikh Haron**
